#### **Our vision:**

At Innserve, our vision is to *'Keep Britain Pouring'* by consistently delighting our customers.

As the largest independent provider of technical services support to the UK drinks dispense industry, we're committed to delivering the highest standards of customer service and technical expertise to the more than 90,000 licensed and non-licensed premises that we support.

We're the leading company in the supply, installation, maintenance and servicing of drinks dispense equipment, and we're proud of our reputation for excellence.

#### **Role purpose/summary:**

You'll be one of around 450 Innserve Technicians who provide quality technical services for the installation and maintenance of drinks dispense equipment.

As an Installation Technician you could be working on any kind of install – from a small font install which takes a couple of hours to being part of a team working on a full bar or cellar refurb.

#### **Key Accountabilities/Responsibilities:**

- Providing quality technical services for the installation of drinks dispense equipment in bars from small font installations to full bar and cellar refurbishments.
- Accurately record all work completed including stock control and asset movement.
- Work in a team on large refurbishments alongside other tradesmen, or independently for smaller installations.
- Always provide a good customer experience.

**Skills, knowledge & experience:****Must have:**

- You will have a practical approach to work with experience in a technical or engineering role.
- You will be able to work with tools and enjoy working on projects from start to finish.
- You will be determined to succeed, deliver a great customer experience.
- You will be flexible and able to work independently.
- You will have a full UK driving licence. **Preferable:**
- Industry experience would also help and may reduce training time needed although comprehensive training will be given for those new to the industry.
- A technical apprenticeship or NVQ qualification would be an advantage but is not essential.
